PERSONAL YACHT AND VILLA CHEF

ABOUT ME

I am able to work as a sole chef for different guests with different needs. Using the freshest, local and seasonal ingredients I love to bring the full flavour of every single element to a dish. For me, cooking is a holistic process, paying the dishes I prepare the respect and love they deserve. I believe food is the primary step to gaining a healthy body, soul and mind. Things that define me: Able to work under pressure, very organized, meticulous about paying attention to each detail and keeping the kitchen always clean.
